INTERNSHIP

Java Development Intern – She Can Foundation (via Internshala) — Ongoing

- Applied Core Java and Object-Oriented Programming concepts to assigned development tasks.
- Wrote reusable code, tested features before submission and followed weekly task updates.

PROJECTS

Personal Portfolio Website — hariom-portfolio-orpin.vercel.app
Tech: Next.js, React, Tailwind CSS, Framer Motion | Deployed on Vercel

- Developed a personal portfolio website presenting my profile, skills, education and projects in a clear, user-friendly layout.
- Structured the interface so project details are easy to browse, and deployed the site live on Vercel.

Student Management System (CampusFlow) — github.com/HARIOM45-67/Student-Management-System
Tech: Java 17, Spring Boot, Spring Data JPA, MySQL, REST API, HTML, CSS, JavaScript, Maven

- Built a full-stack student record management application using Java 17, Spring Boot, Spring Data JPA and MySQL, with a responsive HTML, CSS and JavaScript dashboard.
- Implemented add, view, search, edit and delete operations through a REST API, with input validation and duplicate-email protection.

ItzFizz Hero | Web Development Project — github.com/HARIOM45-67/itzfizz-hero
Tech: React, Vite, GSAP, Tailwind CSS

- Built a scroll-driven hero section with React, GSAP and Tailwind CSS, organizing page components into a clear, user-friendly layout.
- Managed the source code with Git and GitHub to practice front-end development and UI design.
